

# Decorated BUNS

These are M&S Jam filled buns but you could use other little cakes such as brownies, little swiss rolls or eclairs.

Take a small amount of ready roll icing (in a box in the baking section of the supermarket) and knead until soft.

Add in any food colouring and continue to knead until colour completely absorbed.

Roll out until malteser size and using fingers, flatten to shape. For shoe shape, use a very sharp knife to cut out shoe shape.

Position shoe on top of disc and attach using a brush dipped in water.

It does not matter if these come out a bit wonky as they just look more homemade and cute.

Decorate using a food colouring and water mixture. We created zebra and leopard prints for a bit of fun!

For the flip flops, make two sausage shapes and flatten. Then make two very thin strings of an alternative colour icing and form a V shape, slightly moisten, then attach using water.

enjoy!!
